

# COPPER HOOF

# 3X

## **3X LONGER CONTACT TIME**

When Copper Hoof 3X was compared to Copper Sulphate, more than 3 times the product stayed on the hooves that had Copper Hoof 3X after one minute contact time.

## **3X MORE COWS TREATED**

When Copper Hoof 3X was compared to Acidified Copper Sulphate, the pH of Copper Hoof 3X stayed below the critical pH of 4, for 2-3 times the number of cow passes (up to a maximum of 500 cows).

## **3X LESS LABOUR**

When Copper Hoof 3X was compared to Copper Sulphate, there is 3 times less labour because Copper Hoof 3X mixes easy, is easier to handle and lasts longer.
