

Alertys™ OnFarm 10 Test with Sample Collection

The Alertys™ OnFarm 10 Test Kit with Sample Collection is designed for flexibility and convenience on smaller farms. The kit contains 10 individually packaged Alertys OnFarm Tests, complete with a sample pipette and wash solution capsule. Also included:

- 10× 18-gauge, 1-inch double-ended needles
- 10× 2 mL EDTA evacuated tubes
- 2× large needle holders

Producers and veterinarians now have everything needed to collect a sample and run the Alertys test on-site. This all-in-one kit is also available in a quantity ideal for smaller use cases.

Inside the box

EDTA evacuated tube and double ended needle with holder screwed on
