

# TARGET PESTS THE RIGHT WAY

## PROTECT YOUR ANIMALS AGAINST INSECT BORNE DISEASES

Elanco can help raise your confidence for continued success in the ever-changing livestock world. One way we do this is with a powerful portfolio of products, industry expertise and a proven record of collaboration.

Elanco's experts draw on a portfolio of best-in-class insecticides to help you defend your poultry, swine, beef, or dairy operations against insect-borne threats to your success. Preventing flies from damaging the performance of your livestock requires an Integrated Pest Management (IPM) program that includes:

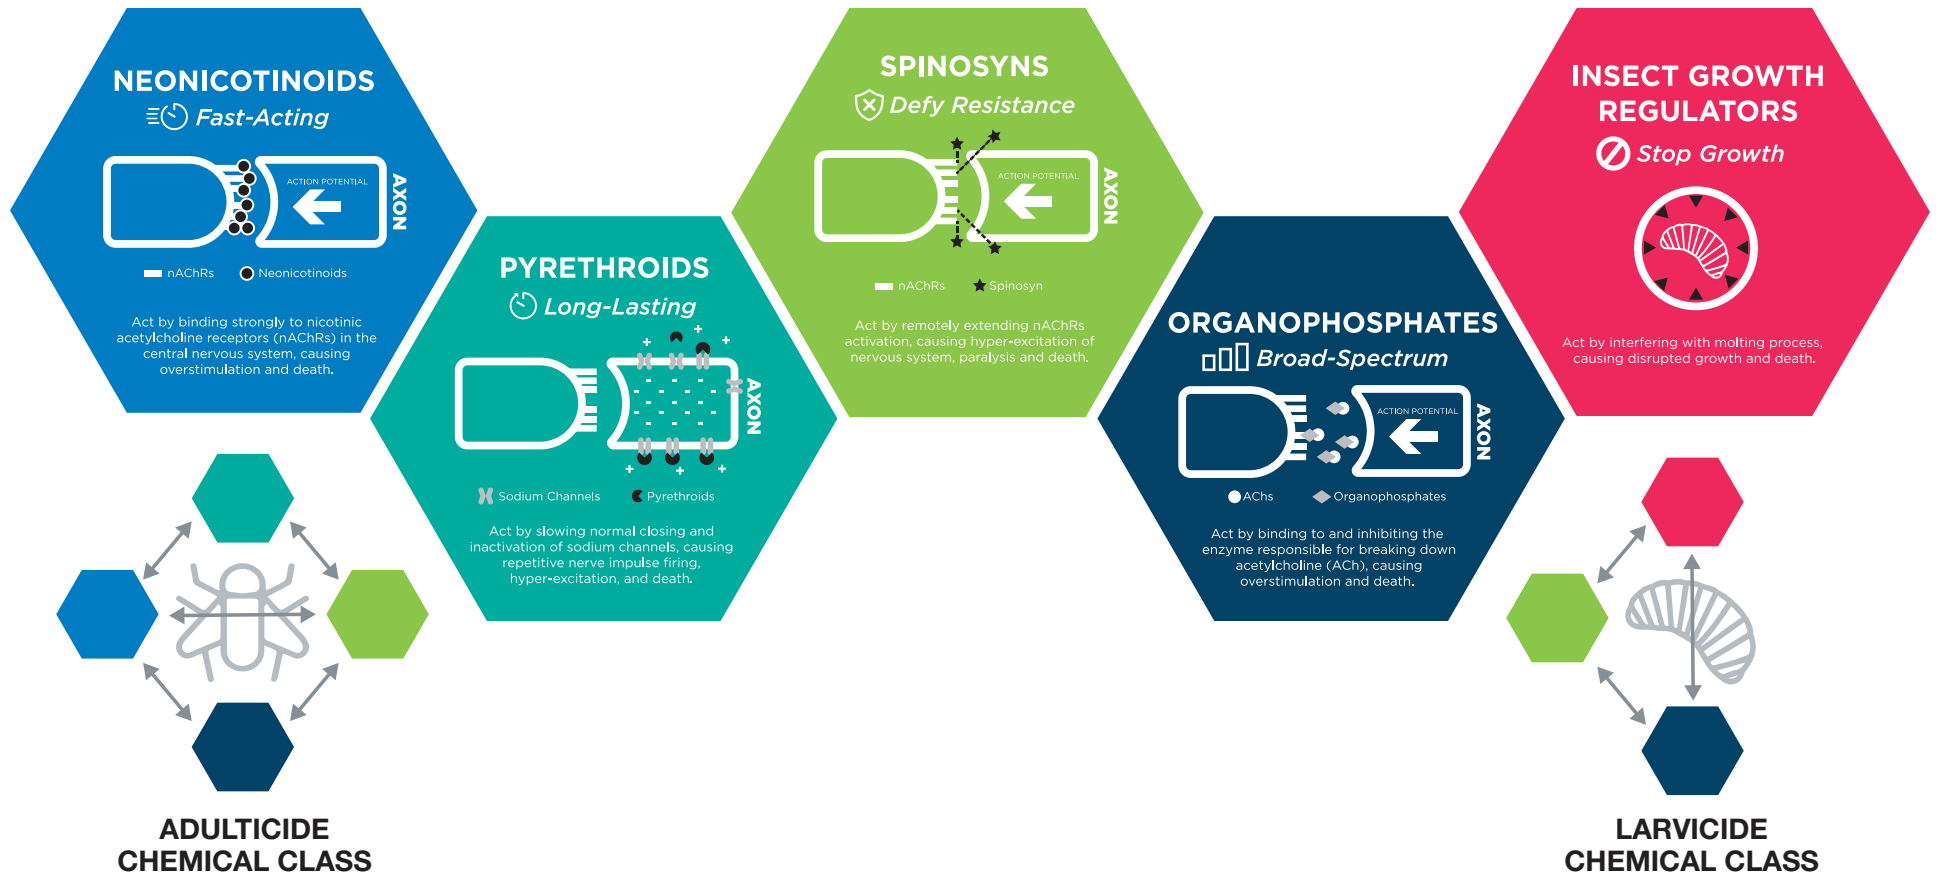

- 1 INSPECTION**  
 Carefully observe the type of insect that is causing a concern and where they congregate.
- 2 SANITATION (MECHANICAL)**  
 Removing breeding areas for flies – manure, water leaks and feed spills – is the first step in controlling insects. Without breeding areas, flies simply won't lay eggs.
- 3 TREATMENT**  
 Use chemicals, at the right time in the right place, that interact with both adult and larval insects. Be sure to follow best practices for controlling resistance.
- 4 MONITORING**  
 Evaluate current control programs and react accordingly.

## FIND YOUR SOLUTION WITH THE ELANCO INSECTICIDES PORTFOLIO

PRODUCT	TARGET	INTENDED USE	OPERATIONAL APPLICATION	CHEMICAL CLASS	ACTIVE INGREDIENT	KEY DIFFERENTIATORS
Agita® 10 WG		Premise			Thiamethoxam	<ul style="list-style-type: none"> <li>Fast find, quick kill</li> <li>Ensures that a lethal dose of active ingredient is consumed</li> </ul>

Agita® 1 GB		Premise			Thiamethoxam	<ul style="list-style-type: none"> <li>Ready to use fly bait granules</li> <li>Attracts flies to bait</li> </ul>

# MANAGE RESISTANCE WITH INTEGRATED PEST MANAGEMENT (IPM)

Using an insecticide within the same chemical class for a long period of time can allow insects to build up resistance to that specific class. Elanco offers effective insecticide solutions in various chemical classes with various modes of action to meet your operations pest management needs.

Talk to your veterinarian or local retailer about your Elanco fly control options.
