

COPPER HOOF 3X

3X LONGER CONTACT TIME

When Copper Hoof 3X was compared to Copper Sulphate, more than 3 times the product stayed on the hooves that had Copper Hoof 3X after one minute contact time.

3X MORE COWS TREATED

When Copper Hoof 3X was compared to Acidified Copper Sulphate, the pH of Copper Hoof 3X stayed below the critical pH of 4, for 2-3 times the number of cow passes (up to a maximum of 500 cows).

3X LESS LABOUR

When Copper Hoof 3X was compared to Copper Sulphate, there is 3 times less labour because Copper Hoof 3X mixes easy, is easier to handle and lasts longer.
