

FerAppease[®]

Maternal Swine Appeasing Substance

Your Pigs' Stress is BITING Your Bottom Line.

***Stress comes from processing, weaning,
transportation, commingling, and farrowing.***

Stress leads to High Cortisol... High Cortisol Concentrations lead to:

➤ **Decreased Weight Gains** ➤ **Decreased Feed Efficiency** ➤ **Increased Aggressions**

***With FerAppease[®], stress is significantly reduced, leading
to lower cortisol concentrations.***

What is FerAppease[®]?

- **Maternal Swine Appeasing Substance (MSAS) is naturally secreted by the sow's skin to comfort her piglets while nursing.**
- **FerAppease is an affordable, safe & easy-to-use application for piglets & adult pigs. It is applied topically on the nose and forehead. When breathed in, MSAS works in the brain to reduce stress.**
